

To whom it may concern

Worlddidac, the global trade association for companies providing products for education and training at all levels, is proud to count among its associates the Italian company De Lorenzo S.p.A.

De Lorenzo, established in 1951 and since then designing and manufacturing training equipment for technical and vocational schools, training centers and Universities worldwide, is member of Worlddidac since 1990.

It has always supported the scopes of the Association in many ways and it has participated to all the Worlddidac Basel events and other Worlddidac exhibitions and trade shows worldwide.

De Lorenzo is a leading manufacturer in the fields of Electrical and Electronic Engineering, Renewable Energies and Energy Efficiency, Telecommunications, Pneumatics, Hydraulics, Automation, Automotive Technology, Thermotronics, Chemistry, Oil and Gas and other technical disciplines.

De Lorenzo is one of the most dedicated and reputable companies in the field of technical and vocational training since its establishment, with a mission of contributing to the consolidation of the technological know-how of the industrialized Countries and to the technical growth of the developing Countries.

Kind regards,

Director General

Worlddidac Association
