

KIT OF REFRIGERATION CYCLE COMPONENT CUTAWAY MODELS

Reference image
DL REF-KIT

GENERAL CHARACTERISTICS

This set of educational cutaway models is designed to provide a clear understanding of key components within the refrigeration cycle.

Each model is full-size, built from real components, and carefully painted and color-coded, with flow arrows included for enhanced visualization.

TECHNICAL CHARACTERISTICS

Cutaway models (full-size, real components, painted & coded, flow arrows included):

- DL REF-KIT01 – Liquid line filter dryer
- DL REF-KIT02 – Oil separator
- DL REF-KIT03 – Liquid separator
- DL REF-KIT04 – Ball valve
- DL REF-KIT05 – Thermostatic expansion valve
- DL REF-KIT06 – Sight glass
- DL REF-KIT07 – 4-way reversing valve
